Goal: 1,000

Hello Fellow Supporters of the Corbin/Post Road Project!

As you may know, public hearings have already been held for the downtown redevelopment project proposed by David Genovese and Penny Glassmeyer. A discussion by the Planning and Zoning Commission will be held at 8 pm on Tuesday, Sept. 6th in Room 206 of the Darien Town Hall. No additional verbal support from the public will be heard at this meeting. The vote will most likely be at the September 20th meeting.

To show support for the efforts of Penny and David, we are planning to buy a full

SIGN PETITION

If you would like your name(s) to appear in the ad, please respond to sign this petition by September 10th and include your name(s) as you want it to appear.

If you choose not to have your name(s) published, merely do not respond to this email. This list will remain confidential and you will not receive any other emails from us.

The cost of the ad will be paid for by the Drimal, Gogolak and Suhler families. We will be identified only as Friends of the Corbin/Post Road Project.

The text of the ad will read as follows:

To: Planning and Zoning Commission, the Town of Darien

First, we want to thank you as our Commissioners for giving the town your time and your expertise. It is incredibly important to have dedicated volunteers to keep watch over this exceptional town. We all take great pride in our schools, our incredible venue along the Connecticut shoreline and our proximity to New York City.

In the past decade, our downtown has become more vibrant. Many new merchants and restaurants have opened which were spearheaded by Penny Glassmeyer and David Genovese. As local residents and builders, they have kept the ambience of Darien while also giving us a transformation. Perhaps a Renaissance?

Darien now has a unique opportunity to continue to refine downtown Darien which will benefit all residents with the Corbin/Post Road Project.

Why do we support this Project?

- This approach is entirely consistent with the Town Plan of Conservation and Development. It has been designed by the renowned firm of Robert AM Stern Architects.
- It will improve the flow of vehicular traffic in town as well as safety, enhance the pedestrian experience and create a significant town green.
- Taxpayers will benefit from a sizeable increase in the business tax base with an estimated increase of \$3.5 million—not to be taken lightly.

SIGN PETITION

- Analysis and input from realtors tell us that this project will have a significant and positive impact on residential property values.
- The Corbin/Post Road Project will help strengthen existing local businesses and restaurants and will attract other high quality retailers.
- It keeps long-time residents in town for in-town living space as well as adding to affordable housing.
- The plan improves in-town flow of traffic with Market Lane and allows for multiple parking options off the Boston Post Road.

Yes, it's exciting. And something beautiful could happen in Darien.

The following residents are but a few of the hundreds and hundreds of names of supporters of the Corbin/Post Road Project.

So let me get this straight. You want to greatly improve downtown, bring in new tax revenue and provide very cost effective space for businesses in Downtown Darien and the zoning board is worried about some of the buildings, set way off the road, are too tall. How shortsighted of them. Your proposal is amazing and should be approved as is!!!

I work in Darien at 1020 Post rd and hope to move my family to Darien from Rowayton next year. This project would significantly improve the downtown area, which we already use as an extension of our small village in Rowayton. This should help property values and increase the overall quality of life for residents and patrons of this town. The 1020 project was a tremendous success in improving the look and feel of the town - hopefully this next chapter will be approved so that a proportionally larger improvement to the town can take place.

my siblings when we were growing up. We love Darien but it lacks a central town area where residents can shop and eat locally. We have found that we are leaving Darien to do most of our shopping and dining out. Furthermore, we are the parents of three very small children and taking our kids out around town is so dangerous due to the busy Post Road that runs through it. It is extremely dangerous so it is imperative we get this project passed and built.

As someone who makes a living writing and speaking about the challenges to and intersection of physical retail and e-commerce, I firmly believe that it is developments like this one that will define communities' willingness to be relevant in the 21st century, and determine whether they will be able to survive in the future. And, as someone who has spent the last 33 years living in Darien, I am excited by the efforts of David Genovese and Penny Glassmeyer to make this a reality, and am happy to sign my name to this petition supporting this project.

is changing and my generation is changing it. Everything you want is a click of a button. What will separate Darien from the rest, is simply an experience. David has a brilliant vision for this town. It is officially no longer a dream but a necessity. Darien needs to become an experience. Here I am a 28 engaged female looking for a place to lay down roots. Darien is only on my list for one reason, school system. Here's the thing new cannon, Greenwich, and Westport also have great school systems. And they have excellent shopping, restaurants and farmers markets.... They all can give us a social experience without being in downtown Stamford lol. Why would I want to go to Darien? Why would I buy a house in Darien? My generation is tough, we want what we want, when we want it. If Darien doesn't grow and develop generations will go by and not look at Darien as the future. From a retail perspective Darien isn't competing with the surrounding towns. Look at all the empty commercial spaces. Our small businesses are what makes Darien so great. The people truly support us, but if you want to continue to have your small shops, we need more shoppers from outside towns. I am 100% behind David and Penny! This change would make me want to live and work in Darien. In my mind the future is now. Let's love our town and give it the makeover it truly deserves.

David G and his incredible, creative, team of developers have and will always continue to think about what is best for our town, our home, our Darien. Their process in this development went above and beyond my expectations. the team was open about suggestions and most whole heartedly eager in understanding what our DARIEN wanted in terms of retail shop ideas etc. He wanted us to be a part of this project by giving our input on what we would like to see in our town .This project is for our community and David included the community in his vision. That is what he does! He thinks of us and our needs and does his best and works hard to support us. So let's think about the countless number of positive benefits this development will bring to our town, our home , our Darien. Please sign!!!
